ICECET
2025

CALL FOR PAPERS

The 5th International Conference on Electrical, Computer and Energy Technologies (ICECET) is a multidisciplinary, peer-reviewed international conference that provides a forum for the exchange of latest technical information, the dissemination of the high-quality research results, the presentation of the new developments in the area, and the debate and shaping of future directions and priorities. ICECET aims to bring together leading academic scientists, researchers and research scholars to exchange and share their experiences and research results on all aspects of Electrical, Computer and Energy Technologies.

Scope and Interest

Topics of interest for submission include, but are not limited to:

- Renewable energy systems
- Photovoltaic systems and solar energy
- Energy storage technologies and devices
- Energy transmission and distribution
- Power systems and automation
- Energy saving technologies
- Applied computer science
- Artificial intelligence
- Computer based learning
- Computer networks
- Human-computer interaction
